The German Alpine Road is the oldest vacation road in Germany and connects Lindau in Lake Constance with Königssee in Berchtesgaden Land. On 484 kilometers you discover a unique mix of fascinating nature, bavarian hospitality and active climate protection. Many hosts along the route offer charging stations or even rental for electric vehicles.

 Here you will find everything you need to know about the e-mobile German Alpine Road including travel options by train.

This map is your supplement to our tour book during your trip on the route of the bavarian originals. For the entire route we recommend to take at least one week and spend at least 2 - 3 overnight stop instead of stage.

On our website you can download the GPS data and Google Maps route. You can also find current route information and other tips for planning your trip at [www.deutsche-alpenstrasse.de](http://www.deutsche-alpenstrasse.de)

**Good to know:**
